AME-2020
Digital Receiver

The image shows a control panel for the AME-2020 Digital Receiver. It features a vertical column of five colored buttons: a blue button labeled 'Load Update CD---', four yellow buttons labeled 'A', 'B', 'C', and 'D', and a green button labeled 'Auto'. To the right of these buttons are two square buttons with upward and downward pointing triangles, collectively labeled 'PROGRAM'. Further right is a square button with a blue 'i' icon, labeled 'UPDATE'. Above the 'UPDATE' button is a small white circle. Below the 'UPDATE' button is a red circle. Text labels 'Updating ---' and 'Updated ---' are positioned above the white circle. At the bottom right, the text 'Communication Failure Call 888-263-5005' is displayed. The top right corner contains the AME logo with the text 'AMERICAN MUSIC ENVIRONMENTS'. A horizontal line separates the control panel from the product name 'AME-2020 Digital Receiver' at the bottom.
